New Year's Eve will witness the celebration of the birthday of the second city of the world. The scene will be in City Hall Park and in the immediate vicinity.

Bands of music, Pyrotechnics, singing societies, floats, theatrical displays, and gay masqueraders, will make the event unique in the history of the city.

Several thousands of dollars will be distributed in prizes for the best choruses.

A committee of eminent men, whose names will be announced later, will award these prizes.

City Hall Square on the Night of the Carnival, with the Pageants, Fireworks and Spectators.

It is now an assured fact that the birth of the Greater New York will be celebrated at the City Hall on New Year's eve, with all the glory of uniformed processions, marching choruses, salutes of artillery, magnificent illuminations, bursts of fireworks, historical tableaux on wheels, competing trains of gay maskers, consolidated military bands, arches of electric lights, and the impressive hoisting of the flag of the city at midnight in the presence of a great multitude.

The monster carnival proposed by the Journal is already being organized. The purpose of this great fete and spectacle is not to celebrate the victory or defeat of any political organization, but to fittingly inaugurate the life of the second city of the world.

The Journal invites assistance from every part of the community. It is time for New York to show its local

pride. Not only native-born citizens, but Germans, Italians, Frenchmen, Swedes, Dutchmen, Cubans, Japanese and Chinamen are expected to appear in costume in the moving carnival. The programme is broad enough to include every element in the population.

Many societies of various nationalities are now at work on plans for the fete. Colored lanterns will be the great feature of the evening. Great batteries of searchlights will be concentrated on the smooth plaza in front of the City Hall. The park will be ablaze with colored arc lights, and the sky will be glorious with bursting shells and trailing monsters of fire, but it is the desire of the Journal that individual citizens shall carry Japanese and Chinese lanterns on sticks in order that the whole neighborhood shall be a swirling flood of brilliant light and color.

Costly prizes will be awarded by a committee of prominent citizens to societies and individuals who produce the most striking or beautiful features of the carnival. Not a man or woman in costume will be excluded from the
